Assets amounted to 238.1 AMD, decreasing by 10.9 billion AMD compared to the end of the previous financial year's indicator. Credit investments amounted to 152.1 billion AMD, or 63.9% of total assets. Liabilities amounted to 203.6 billion AMD, decreasing by 11.6 billion AMD compared to the end of the previous financial year.

Liabilities to customers amounted to 172.7 billion AMD, decreasing by 17.1 billion AMD compared to the last indicator of the previous year. The latter has decreased mainly due to the reduction of demand for funds attracted from legal entities.

#### Bank's capital:

The capital adequacy ratio stood at 14.46% in June 2020, increasing by 0.38 percentage points from March 2020 due to a decrease in risk-weighted assets. The capital adequacy ratio exceeds the minimum level set by the Central Bank of Armenia (12%). As of 30.09.2020, the Regulatory capital amounted to 31 billion AMD.

The net profit for 9 months amounted to 768,454 thousand AMD.

#### **Retail business**

In the retail business, the Bank's work was aimed at improving the product line, optimizing business processes, and improving the quality of customer service through feedback amplification.

As part of the Central Bank's policy to reduce interest rates, the Bank has offered its customers more attractive terms. Stable growth was registered in consumer loans for loans for the purchase of goods and household appliances, gold secured loans.

The Bank continued its policy of reducing the cost financing by setting moderate interest rates on time deposits.

#### **Corporate business**

In line with the micro-small enterprises development strategy, during the second quarter of 2020, Unibank continued to take active steps to increase the availability of credit resources aimed at this segment. Focusing on the target segments, the efforts of the corporate business unit were actively focused on financing the construction and service sectors, including the hotel and restaurant business.

#### Service network, customer base

As of 30.09.2020, the service network of Unibank includes 53 branches in Armenia and Artsakh, 93 promo points, 125 ATMs, 142 payment terminals. The Bank has a representative office in Moscow, which supports the attraction of foreign clients.

The Bank served more than 340,000 customers throughout the year.

In the field of money transfer services, there is a slight change in the volume, due to the similar volume of international non-commercial transfers of individuals received through the Bank.

#### **Strategic priorities for 2020**

The events of recent months amid the coronavirus pandemic, the tasks and priorities of the Bank's further development have changed, and the Bank's management is reviewing its annual forecasts, analyzing various scenarios for the development of Unibank.

As part of ongoing measures to support citizens and businesses, Unibank participates in government programs to stimulate lending to small and medium-sized businesses, pay assigned social support benefits, provide deferred loan payments, provide with the possibility of restructuring loans, and to limit face-to-face interaction with customers as much as possible, the remote connection to mobile banking system is introduced.

As part of Unibank's approved strategy of for 2020, the following key priorities are formulated:

- technological improvement, sales development through digital channels,
- further development of artificial intelligence technologies in the lending industry,
- development of a customer-oriented approach and, based on an in-depth analysis of customer needs, formation of a service and product line also for their counterparties,

Within the framework of social responsibility, Unibank continued its program of support to border schools, contributing to the improvement of the quality of education.

In June-July Unibank has updated its UniMobile app thus making remote service more convenient for the clients. New functions have been added to UniMobile: users can now register online by themselves, make from-card-to-card transfers and pay loans of other banks. Online registration is an important asset allowing new users of UniMobile to connect to the application without visiting the Bank. Accessibility to accounts and the whole package of remote services is round-the-clock.

Unibank has updated credit scoring for unsecured consumer loans, introducing the technology of Artificial Intelligence (AI).7The AI algorithm will enable us to process great amount of information, to analyze client behavior and to model their profiles far more precisely. As a result, the bank will be able to make the process of decision making more optimized, risk evaluation quality higher and responsible client service better, offering them more profitable crediting conditions meanwhile saving time and resources.

In July Unibank's new, 52nd branch was opened in Sisian. In August Unibank opened its 53rd branch in Aparan. The areas were selected based on the demand for banking services in the area and business environment. The newly opened branches will operate on a one window basis, providing customers with all banking services. The spacious, modern halls of the branches, which are equipped with a queue management system, a payment terminal, will provide comfortable and fast service for customers.

In July Unibank's USD bonds listed Moscow were Exchange. For the first time in the history of the Armenian Banking, "Unibank" OJSC has undertaken a secondary listing of bonds in Russia. The tenth tranche of Unibank's coupon bonds with an annual yield of 5.25% has been included on the third listing level of Moscow Exchange. Unibank made a decision on a listing in Russia, taking the high level of Russian investors' interest in the Bank's dollar bonds into consideration. The secondary listing on Moscow Exchange will give Russian investors an opportunity to acquire bonds issued by an Armenian bank in a simplified method- without opening a bank account and securities account in Armenia. It is enough for the buyer in Russia to have an account with the National Settlement Depository or with a Custodian. Physical Persons' and Legal Entities' interest in the given investment tool is also conditioned by Unibank's reputation, which is one of the leaders of the Armenian retail banking.

In September Unibank issued USD denominated bonds in the amount of \$5,000,000 with 5.25% annual yield. The par value of the bond is \$100; the minimum lot being \$1000, which makes the securities available to a wide range of investors, including individual entities. The maturity of the bonds is 36 months. The listing of the bonds was held on the AMX Armenian Stock Exchange.

In September Unibank realized another emission of bonds in the amount of AMD 500,000,000 10.5% annual yield. The par value of the bond is AMD10,000; the minimum lot being AMD1,000,000 which makes the securities available to a wide range of investors, including individual entities. The maturity of the bonds is 27 months. The listing of the bonds was held on the AMX Armenian Stock Exchange.

Adhering to its credit policy, the Bank continued to diversify its loan portfolio by increasing the share of retail loans and SME loans in the loan portfolio.

The Bank has pursued a conservative policy in lending to large enterprises, assets of the Bank have mainly been placed by short-term, in relatively low-risk sectors. For this purpose, the Bank has regularly analyzed the sectors of the economy, as well as developed a scoring model for SME lending, automated the approval of SME loan applications, in order to fulfil the planned indicators for SMEs, Improving the qualification of employees for SME lending.

Vintage analyzes, stress tests, internal and external audits allow to timely identify and manage the Bank's financial and operational risks.

Risk management is one of the most important part of Unibank's management. Risk management in Unibank specifies a complex system of interrelated activities which is directed to prevent and minimize potential losses of Bank. The main goal of Risk management of Unibank is to enable the Bank to maintain the aggregate value of risks at the level of risks set by the strategic plan of the Bank and to maximize its return on capital.

Risk Management of Unibank is based on the documents of Committee on Banking Supervision of the Bank for international Settlements (Basel Committee on Banking Supervision), Generally Accepted Risk Principles (GARP), on laws and normative acts of RA and CB of RA, based on principle of breaking-even and directed to maintenance of the optimal relations between banking profitability and the level of risks. Risk is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Bank's continuing profitability and each individual within the Bank is accountable for the risk exposures relating to his responsibilities. The Bank fosters a culture that increases the level of Risk Management related knowledge across the bank, in particular relevant seminars are organized.

In the course of its operation, the Bank is exposed to a number of financial risks, including the analysis, assessment, acquisition and management of a risk or combination of risks.

Credit risk is the probability of non-fulfilment or incomplete fulfilment of credit obligations assumed by the borrowers, as a result of which the Bank will incur a loss;

The Bank regulates the levels of the credit risk by setting limits on one borrower or group of related borrowers as well as by sphere and geographic concentration.

Market risk is the probability of the Bank's loss due to changes in market factors (foreign exchange rates, interest rates).

Liquidity risk is the probability that the Bank will not meet the legal requirements of its creditors in a timely manner, as a result of which the Bank will incur a loss.

Capital adequacy risk is the probability of insufficiency (inadequacy) of the Bank's capital in the event of a change in risk-weighted assets and/or elements of the capital.

Operational risk is the probability of the Bank incurring losses as a result of internal organizational and / or business processes (inadequate or unregulated staff actions, intentional or unintentional transaction errors, other operational or technological malfunctions) or external factors of a manmade nature.

Legal risk is the probability of the Bank incurring losses as a result of non-compliance of the Bank's internal legal acts, business processes, credit products, transactions with the current legislation governing the latter.

Reputation risk is the probability of the Bank losing its current or potential customers, partners or transactions with the latter due to a negative public opinion, which could result in financial losses and / or liquidity problems for the Bank.

Strategic (business model) risk is the probability of the Bank choosing an unrealistic (inappropriate) strategy, as well as the possibility of adverse changes in the assumptions, indicators, objectives and / or other factors underlying the chosen strategy, which may lead to financial losses of the Bank.

#### The components of the Bank's risk management system are:

Strategy,
Methodology
Control,
Effectiveness evaluation
Modernisation (if necessary).

Banking risk management is the implementation of actions by the competent bodies, subdivisions or persons of the Bank, which will enable to ensure a positive financial result in the presence of banking risks and in case of uncertainty.

The Risk Management System operates on a continuous basis, taking into account the dynamic changes of internal and external environments.

Banking Risk Management is carried out by a vertical three-tier system:

- Strategic level: identification of risks, definition of acceptable appetite, processes and limits,
- Control / control level: monitoring, deviation analysis, evaluation and compliance,
- Tactical level: current risk management within the permissible limits (execution of risky transactions).

The stages of the Banking Risk Management process are:

- Risk identification (definition), including risk factor analysis (segregation),
- Definition of risk assessment methods (by types) and risk assessment (forecasting);

Risk limit, i.e the establishment of principles of diversification, internal limits, as well as the development and adoption of relevant internal legal acts, which, in particular, include the principles of multiple verification, the implementation of the same process on different persons not affiliated with each other and principles of error detection.

Practical management of risk, i.e implementation of appropriate actions, situational response (avoidance, reduction / hedging, transfer / insurance, risk acceptance, etc.),

Risk monitoring, analysis, current (operational) and provision of periodic reports / information in vertical and horizontal formats,

Post-transaction risk control.

Each Risk Management process (limits, management, control, reporting, responsible ones, etc.) is regulated by relevant rules, procedures.
